SUMMARY

Business analyst with an MS in Global Supply Chain Management and 1+ year in sourcing and inventory. Builds large-scale Excel models from raw SQL extracts to analyze cost and excess, and uses AI coding tools to automate manual workflows.

EDUCATION

University of Southern California, Marshall School of Business — Los Angeles, CA December 2026
Master of Science in Global Supply Chain Management (STEM-designated) | GPA 3.87

University of British Columbia, Sauder School of Business — Vancouver, Canada May 2024
Bachelor of Commerce in Operations and Logistics | Outstanding International Student Award (\$10,000)

WORK EXPERIENCE

Inventory Intern — APM Terminals June 2026 – August 2026
Los Angeles, CA

- Built a 10,855-row **Excel** model consolidating **19 Power BI reports** and **SQL** extracts from ERP, evaluating demand, age, and movement across \$12.7M of spare-parts inventory to identify \$5.8M of excess stock.
- Designed a statistical inventory optimization model (EOQ, Critical Ratio, Poisson demand) recommending reorder points and stock levels; validated via **@RISK Monte Carlo** simulation with only 2.44% deviation.
- Created **10+ Power BI dashboards** with DAX measures across PO receipt, issue, date, and cost-center tables, giving each department recurring visibility into cost and stock health.
- Developed web tools using **AI-assisted coding** to automate workflows: a purchase-order calendar ([Liucent - live demo](#)) replacing manual ERP tracking, and a spare-parts finder that cut lookup time from 10 minutes to under 1.

Procurement Specialist — Baiyu Pharmaceutical Co. August 2024 – July 2025
Chengdu, China

- Led procurement for 20+ monthly purchase requests totaling \$200K+ across equipment, materials, and services.
- Drafted and refined **50+ supplier contracts**, defining pricing structure, payment terms, and delivery conditions.
- Negotiated supplier pricing and terms, achieving cost reductions of up to 30%.
- Collaborated cross-functionally with Engineering, Finance, and Legal teams to evaluate supplier qualifications.

Operations Planning Intern — Baiyu Pharmaceutical Co. June 2022 – August 2022

- Built weekly demand and inventory dashboards tracking 40+ SKUs from raw materials through finished goods.
- Automated recurring reporting using advanced **Excel**, cutting manual processing time by 70%.
- Ran root-cause analysis on product returns and budget variances using **Lean methodology**.

RELEVANT PROJECTS

Caterpillar Supply Chain Network Design December 2025
• Modeled a \$2.04B capacity investment using scenario and trade-off analysis, projecting 36.8% ROI at a 2.7-year payback; evaluated a sourcing reallocation cutting annual tariff from \$832M to \$33M.

Maersk Vietnam: Operations & Automation Roadmap October 2025
• Assessed Maersk's Vietnam operations via PEST/SCOR analysis to identify binding constraints on throughput; proposed an automation roadmap to maximize ROI.

TECHNICAL SKILLS

- **Advanced Excel:** VLOOKUP, INDEX/MATCH, SUMPRODUCT, Pivot Tables, Solver, array formula, conditional formatting.
- **BI & Visualization:** Power BI (relational database, DAX), Tableau, de-duplication, validation, KPI designing, ERP (IFS).
- **Data Analytics:** SQL, Python, Monte Carlo simulation (@RISK), predictive forecasting (JMP), linear programming.
- **Business:** Contract drafting, strategic sourcing, pricing and cost analysis, demand forecasting, inventory planning, statistical modeling, supplier negotiation, S&OP, Lean Six Sigma.

CERTIFICATIONS

- Lean Six Sigma Green Belt – USC Marshall School of Business
- The Essentials Professional Certificate – CSCMP Supply Chain Foundations
- Advanced Diploma in Modelling and Analytics for Supply Chain Management – ALISON
